Southern Adelaide & Fleurieu Trade School Annual Report

December 2011

What is the Southern Adelaide and Fleurieu Trade School?

The Southern Adelaide & Fleurieu Trade School (SAFTS) is a consortium of schools in Southern Adelaide, Fleurieu Peninsula and Kangaroo Island. Strategic Partnerships enable young people to gain practical skills for work while they are still at school.

The Southern Adelaide & Fleurieu Trade School for the Future consists of a diverse range of schools that service a range of different communities with significantly different needs.

Students access a range of vocational courses across the region hosted by local schools working with the local community and industry.

At the same time, young people will be able to achieve their South Australian Certificate of

Education (SACE) while learning skills and working toward industry-accredited qualifications.

Young people will be better prepared to take on apprenticeships and skilled jobs in areas that include the areas we have identified skill shortages in - Health and Education, Agribusiness and Environmental, Advanced Manufacturing and Automotive, Construction, Food, Wine and Tourism.

The SAFTS Trade Training Centres will establish regional centres of excellence in schools to deliver training in identified skill shortage areas. Upgrades to facilities and equipment will include - Doorways 2 Construction Centres, Agriculture and Environment Centres, Health and Community Services Centres, Tourism and Hospitality Centres, Advanced Manufacturing and Automotive Centres.

These will be located strategically across the region to increase the options for all students. All students will have access to all programs and pathways.

2012 Southern Adelaide and Fleurieu Trade School VET Courses

In 2012 the Southern Adelaide and Fleurieu Trade School will offer a range of VET programs throughout the Southern Adelaide and Fleurieu Region.

Approximately 747 students have enrolled for 2012 Trade School VET courses. There are 53 courses

available across 12 schools in the region. These courses have links to the local community and employers.

The priority for 2012 is to further develop Industry Pathways Programs in selected industry areas.

These Industry Pathways

Programs will enable students to undertake training at a Certificate 3 level as a major part of their

Trade Training Centres now open for training

The Southern Adelaide and Fleurieu Trade School Trade Training Centres (SAFTSTTC) are now open for business following a \$9.5 million investment in new facilities and equipment through the Australian Government Trade Training Centres in Schools Program.

It incorporates ten schools who are all members of the Southern Adelaide and Fleurieu Trade Schools Alliance. The Trade

Training Centre aims to increase regional capacity to deliver and support a range of Certificate III training in Engineering, Automotive, Building and Construction, Agriculture, Hairdressing and Hospitality.

The SAFTS TTC will be officially opened later in the year. The project includes the upgrade of existing facilities and the purchase of new equipment as follows:

Eastern Fleurieu School	Automotive, Horticulture, Tourism
Reynella East High School	Automotive, Doorways 2 Construction, Community Services, Allied Health Assistant
Aberfoyle Park High School	Business, Doorways 2 Construction, Electrotechnology, Community Services, Sport and Recreation
Willunga High School	Doorways 2 Construction, Furnishing, Hospitality
Mount Compass Area School	Creative Industries 'Media', Rural Operations
Hallett Cove School	Plumbing, Electrotechnology
Yankalilla Area School	Hairdressing, Information Technology
Seaford 6-12 School	Automotive
Wirreanda High School	Doorways 2 Construction, Music, Sport and Recreation, Hospitality
Victor Harbor High School	Furnishing, Community Services, Health Support / Allied Health

“local schools working with local community and industry”

New Funding for more Trade Training Centres

Christies Beach Trade Training Centre (CBTTC)

The Christies Beach Trade Training Centre aims to provide quality affordable pre-VET and VET training in school that addresses regional skill shortages in automotive, engineering, hospitality, allied health, horticulture and resources industries in partnerships with TAFESA and Civil Train.

The CBTTC will include the construction of purpose built workshops, training rooms and storage for Automotive, Horticulture, Engineering and Resources Industry. There will be a refurbishment of an aging existing training kitchen to a modern purpose built training commercial kitchen.

Qualifications to be delivered in the CBTTC include:

- Resources Industry/ Construction - Certificate 2 Resources and Infrastructure, Certificate 3 Civil
- Construction
- Engineering- Certificate 2 Engineering
- Automotive- Certificate 2 Automotive
- Horticulture- Certificate 2 Conservation and Land Management

- Hospitality- Certificate 1 Hospitality,
- Allied Health- Certificate 2 Health Support Services/ Certificate 3 Allied Health

CBTTC is to be located Christies Beach High School, Morton Road, Christie Downs, SA, 5164.

Kangaroo Island Trade Training Centre

The Trade Training Centre includes the construction of two new facilities to include a commercial kitchen, butchery and bakery training facilities, a multi-trades workshop and an engineering workshop and also the provision of equipment across three sites within the cluster.

It will deliver Certificate I and II qualifications in agriculture, automotive, food processing, resources and infrastructure, engineering and hospitality to address skills shortages in agriculture, in the occupations in local demand in resources and infrastructure and in the trades of baker, butcher, cook, motor mechanic and welder.

KICETTC is to be located at Kangaroo Island Community Education- Kingscote Campus and Parndana Campus

Trade School Course Data 2009 / 2010 / 2011 / 2012

The data shows the total number of students from each school who have completed or are enrolled to complete a VET course through the Southern Adelaide and Fleurieu Trade School.

The significant increase in student numbers from 2009 to 2012 is due to the growth in VET in schools programs, in particular the development of Industry Pathways Programs.

HARD WORK PAYS OFF

A Christies Beach High School student secured a School Based Apprenticeship as part of the Trade School program.

This was Kyal Anderson, a year 12, and he is now doing a certificate 3 in Civil Construction.

He worked really hard in his VET course in Civil Construction in 2010, attended the Apprentice Ready course after school and met with Andria regularly for support.

Because this apprenticeship is a school based, Kyal will finish year 12, work for a few days a week and stay at school for the rest of the time. He gets paid for his work and training too.

WIRRA WIRRA HIGH

Neptism is alive and well at Wirra Wirra! Actually, we like nothing better than to foster the family spirit in the cellars – and over the last 12 months we've been able to scratch this itch with the help of a school based traineeship for **Daniel McNicol**, son of cellar door manager, **Mrs. Mac**.

The traineeship provides a means for students to experience the world of work in a range of occupations while still at school.

The programmes offer a mix of

workplace learning and off job training, with students receiving formal credit towards their SACE as well as industry and TAFE accreditation.

While working in our vineyards, young Dan has completed Certificate 1 in Vineyard Operations and has almost completed Certificate 2.

Certificate 3 should be bowled over by the end of next year and will be assessed as a year 12 subject. Speaking of being bowled over, Dan is a talented young sportsman, somehow finding time to make special squads in AFL and cricket.

At just 15 years of age and seemingly growing before our eyes, **AK** has him pegged as the next **Bruce Reid** so there may be more in his desire to keep him close than meets the eye...
