E-mail – info@safts.sa.edu.au

TRAINING GUARANTEE FOR SACE STUDENTS (TGSS)
The Training Guarantee for SACE Students (TGSS) is for students who know they want to start a planned occupational pathway whilst still at school as part of their SACE and then continue after they leave school. Students must be 16 years of age or older and undertaking substantive VET within the SACE and have relevant work experience or VET training.

COSTS
SAFTS courses comply with Industry Training Packages. Many of the courses include an additional financial fee. There is a variation of costs between similar courses due to differences in agreements with Registered Training Organisations and host schools. This may be due to training, assessment or the competencies selected.

STRUCTURED WORKPLACE LEARNING (SWL)
SWL is an opportunity for students to experience a real or simulated workplace opportunity relevant to their VET program. The benefits of SWL include: learning new skills, working as part of a team, experiencing the workplace environment and becoming better informed for further career choices.

TRAVEL ARRANGEMENTS
If students have chosen to participate in a course at another SAFTS school, parents / caregivers will be required to arrange transport for their child to the training and work placements.

SELECTION GUIDELINES
Selection for entry to courses will be based on the following guidelines:

- Identified relevant interest and/or previous work experience
- Identified career pathway
- For Training Guarantee for SACE Students (TGSS), students must meet eligibility criteria

For further information contact your VET Coordinator or visit www.safts.sa.edu.au

SOUTHERN ADELAIDE AND FLEURIEU TRADE SCHOOL
Vocational Education & Training (VET) Certificate Courses

www.safts.sa.edu.au
Students will gain automotive industry relevant skills and experiences, and a clear pathway for employment opportunities in the Automotive industry. 

These courses provide an introduction to the industry through the development of practical skills.

The ICT industry is responsible for the storage and transmission of information available via electronic, wireless, optical and other means.

The ICT courses are designed to introduce students to the many career opportunities available for IT professionals: designers and will focus on 3D animation used in games, films and visual effects.

These courses have been developed to provide clear pathways and a range of skills and opportunities for students to prepare for employment in the construction industry.

These courses are developed to introduce students to the Hospitality and Tourism industry through the development of practical skills.

Students develop industry relevant skills and knowledge in the fields of Electricity and Electronics.

These courses provide the opportunity for students to fast track through the early training requirements for many facets of the Engineering and Manufacturing industry.

These courses have been developed to provide clear pathways and a range of skills and opportunities for students to prepare for employment in the Hospitality and Tourism industry.

These courses provide an introduction to the Recreation industry. Programs cover a range of practical skills to provide a pathway to the industry.

These courses are designed to introduce students to the Sports and Recreation industry. Programs combine training, equipment setup, supervising recreational activities, facility maintenance, coaching and administration.

The Hospitality and Tourism industry is a major employer in the Southern & Fleurieu area. These courses prepare students for work in a vibrant and exciting industry through practical experience of food preparation, hygiene and customer service.
